- Up to 4 x more surface contact** for an effortless deep clean

Designed around you

- Timers encourage thorough 2 minutes of brushing

Provides a superior clean

- Up to 10 x more plaque removal than a manual toothbrush

Highlights

Say goodbye to plaque

Thanks to its flexible design, it removes up to 10x more plaque from hard-to-reach areas* for a truly deep clean along the gum line and between teeth.

Adaptive cleaning technology

You get a personalised clean every time you brush with our adaptive cleaning technology. Soft rubber sides flex to let C3 Premium Plaque Control adapt to the shape of your teeth and gums, absorbing any excess brushing pressure and enhancing our sonic cleaning power. Bristles can then adjust to the shape of your teeth and gums so you get up to 4 x more surface contact than a regular brush head** for deeper cleaning in hard-to-reach areas.

Look after those gums

With optimal cleaning from your DiamondClean, gums will become healthier in 2 weeks*. Removing up to 7x more plaque along the gum line than a manual toothbrush*, you'll get your healthiest smile.

5 modes to clean your way

With DiamondClean, you get a refreshing clean every day. Our 5 modes cover all your brushing needs: Clean mode – for exceptional daily cleaning, Gum Care – to gently massage gums, Polish – to brighten your smile, Sensitive – for gentle yet effective cleaning of sensitive gums and White – the ideal mode to remove surface stains.

Brush with confidence

Whatever your specific needs, you can be sure of a safe brushing experience with DiamondClean. Our sonic technology is

suitable for use with braces, fillings, crowns and veneers, and can even be used in the daily treatment of gum disease.

Quadpacer and Smartimer

It takes just 2 minutes to thoroughly brush your teeth. Our Quadpacer lets you know when you've spent the optimal amount of time on each section of your mouth while our Smartimer signals when your total time is up. Together they help you reach your recommended brushing time, every time.

Philips Sonicare technology

Philips Sonicare's advanced sonic technology pulses water between your teeth, and its brush strokes break plaque up and sweep it away for an exceptional daily clean.
