Superior cleaning between teeth

Toothbrush for gentle cleaning of teeth and gums

Combining our sonic technology and 5 brushing modes, the FlexCare+ electric toothbrush is your solution for improved oral health. Plus you can improve your gum health after just 2 weeks of use.

Proven to improve oral health

- Clinically proven safe and gentle
- Naturally whiter teeth with patented sonic technology
- Improves gum health in only two weeks

Guides you to follow dental recommendations

- Quadpacer interval timer encourages thorough brushing
- Two-minute timer helps ensure recommended brushing time

Provides a superior clean

- Sonicare dynamic sonic action drives fluid between teeth
- Angled brush head neck for better reach to back teeth
- Designed to reach deeper and go further

Offers a customised brushing experience

- Easy-start programme to acclimate to the Sonicare experience
- Five different modes for a better cleaning experience

Highlights

Reach deeper and go further

Philips Sonicare InterCare toothbrush head features extra-long, high-density bristles to target hidden plaque caught deep between teeth and other hard-to-clean areas.

Naturally whiter teeth

The dynamic sonic action of this toothbrush and the direct broader contact with each tooth, has been proven to remove everyday stains, to help keep teeth naturally whiter.

Angled brush head neck

The uniquely angled neck of this toothbrush head makes it easier to reach back teeth, removing plaque in those hard-to-reach areas.

Improves gum health

This Philips Sonicare electric toothbrush provides optimal cleaning along the gumline for improved gum health in just two weeks. Up to 6 times better plaque removal than a manual toothbrush at the gumline.

Safe and gentle

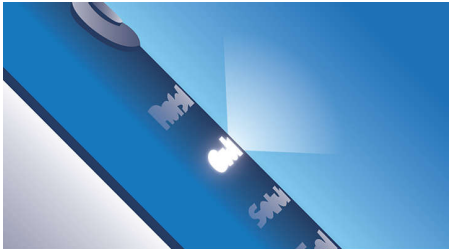

Philips Sonicare is a gentle electric toothbrush for braces (brush heads wear out sooner when used on braces), and is safe for dental restorations (fillings, crowns, veneers) and periodontal pockets, too.

Smartimer

2-minute timer on this Philips Sonicare electric toothbrush helps ensure dental professional recommended brushing time

Five different cleaning modes

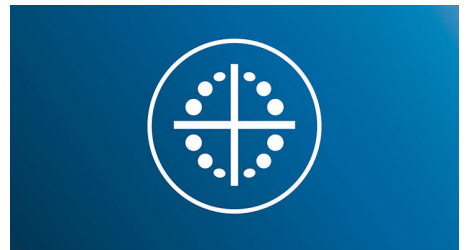

The five modes include a Clean mode for an outstanding clean in two minutes. A Sensitive mode for gentle yet thorough cleaning of the gums. A Refresh mode for those quick one-minute touch-ups. A Massage mode to stimulate the gum and a Gum Care mode that helps improve gum health.

Sonic technology

Philips Sonicare electric toothbrush's unique dynamic action gently and effectively reaches deep between teeth and along the gum line.

Quadpacer

30 seconds interval timer indicates when you have completed each quadrant of your mouth and signals for you to move on, resulting in more consistent cleaning throughout your mouth
