Highlights

Naturally whiter teeth

The dynamic sonic action of this toothbrush and the direct broader contact with each tooth, has been proven to remove everyday stains, to help keep teeth naturally whiter.

Clean and White Mode

2 minutes of Clean mode with an additional 30 seconds of White mode to focus on the visible front teeth. Removes everyday stains, such as coffee, tea, tobacco and red wine. Whitens teeth by 2 shades in just 2 weeks.*

Clean Mode

For exceptional everyday cleaning. Helps maintain whitening treatments.

DiamondClean brush head

DiamondClean toothbrush heads, Philips Sonicare's best whitening brush head, have diamond shaped bristles to effectively yet gently remove surface stains and scrape away plaque. Removes stain build up from coffee, tea, red wine, cigarettes and tobacco in just 1 week.

The only true sonic technology

Philips Sonicare electric toothbrush's unique dynamic action gently and effectively reaches deep between teeth and along the gum line.

Removes up to 7 x more plaque

Removes up to 7 x more plaque from hard-to-reach places than a manual toothbrush.

Easy-start programme

Gently increases power over first 14 uses to ease you into the Philips Sonicare electric toothbrush experience

Angled brush head neck

The uniquely angled neck of this toothbrush head makes it easier to reach back teeth, removing plaque in those hard-to-reach areas.

Safe and gentle

Philips Sonicare is a gentle electric toothbrush for braces (brush heads wear out sooner when used on braces), and is safe for dental restorations (fillings, crowns, veneers) and periodontal pockets, too.

Quadpacer

30 seconds interval timer indicates when you have completed each quadrant of your mouth and signals for you to move on, resulting in more consistent cleaning throughout your mouth

Smartimer

2-minute timer on this Philips Sonicare electric toothbrush helps ensure dental professional recommended brushing time
