Ultra-sensitive cleaning. Ultra-soft comfort.

Superior cleaning for sensitive teeth and gums

The Philips Sonicare Sensitive toothbrush head is perfect for those seeking relief from painfully sensitive teeth and gums.

A brush head that fits multiple handles

- Works with any Philips Sonicare click-on toothbrush

Proven to improve oral health

- Part of a better oral healthcare routine

Designed to optimise performance

- Innovative bristle design softly sweeps plaque away
- Reminder bristles ensure your most effective clean
- Philips Sonicare's advanced sonic technology

Gentle yet effective cleaning

- Removes more plaque than a manual toothbrush

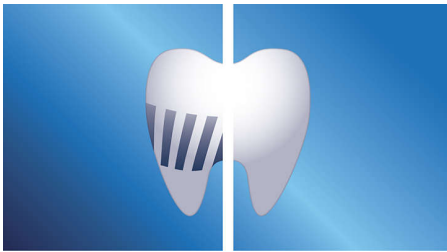

Highlights

Softly sweeps away plaque

This Philips Sonicare toothbrush head features ultra-soft bristles for gentle, effective cleaning. Also features special trim profile to cushion teeth for a gentler brushing experience. Also available in a smaller, compact size for precision cleaning.

Removes more plaque

Our Philips Sonicare Sensitive brush head is clinically proven to provide superior plaque removal compared with a manual toothbrush.

Maximised sonic motion

Philips Sonicare's advanced sonic technology pulses water between your teeth, and its brush strokes break plaque up and sweep it away for an exceptional daily clean.

Click-on brush head system

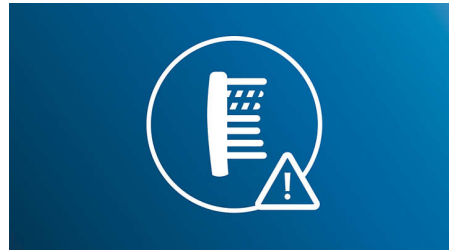

This brush head clicks on and off your brush handle for a secure fit and easy maintenance and cleaning. It fits all Philips Sonicare toothbrush handles except: PowerUp Battery and Essence.

Better oral healthcare

Like all authentic Philips Sonicare branded brush heads, this brush head is safe on teeth and gums. Each brush head has been quality tested for exceptional performance and durability.

Reminder bristles

At first glance it may not be obvious, but brush heads lose stiffness and gradually wear down over months of normal use. Our blue reminder bristles fade to white and help you recognise when it's time for a replacement. For optimal results, replace your brush head every three months.
