 Product Picture

Fits little mouths and hands

Teether that helps soothe teething pain

The Philips Avent BPA-Free Classic range of teethers SCF882/01 massage your baby's sore gums throughout their different teething stages. The colourful, playful designs perfectly fit your baby's hands and mouth to help soothe teething pain.

Helps soothe teething pain

- Multiple textures cool and massage gums as back teeth emerge
- Can be placed in the fridge to cool

BPA-Free

- Philips Avent teethers are completely BPA and Phthalate Free

Hygienic

- Easy to clean with warm water

High quality

- Complies with all international safety standards

Highlights

Easy to clean with warm water

This teether is ergonomic for your baby to hold with round edges. This means it is also easy to clean and the shape doesn't allow your baby to get trapped easily. Just rinse with warm water and it is ready to use again!

Textures cool and massage gums

This gel-filled teether can be cooled in a refrigerator to provide cool pressure to soothe your baby's teething pains. The different textures also give varying levels of pressure to suit your baby's liking.

BPA and Phthalate Free

BPA-free — following EU Directive 2011/8/EU.

Place in the fridge to cool
