- 1900 W for beautiful results

Long-lasting styles

- Cool Shot sets your style

Time saving

- TurboBoost lets you dry faster without additional heat

Highlights

Specifications

Six flexible speed and temperature settings

The speed and heat required can be easily adjusted to create the perfect style. Six different settings ensure full control for precise and tailored styling.

Narrow concentrator

The concentrator of the hair dryer works by focusing the flow of air through the opening onto specific areas. This results in precise styling and is great for touch-ups or to finish a hair style.

1900 W

This 1900 W hairdryer creates the optimum level of airflow and drying power, for beautiful results every day.

TurboBoost

The special TurboBoost feature has been designed to quickly dry yet protect the hair by providing powerful drying without the need for increased temperature.

Cool Shot

A must-have professional function for hair stylists. The Cool Shot button provides an intense burst of cold air. It is used after styling to finish and set the style.

Easy storage hook

The rubberised hook is located at the base of the handle and provides another storage option, particularly convenient for use in the home or when staying at a hotel.

3 m cord

The longer length results in improved flexibility and ease of handling, so you can use it anywhere you want.
