190°C

Ceramic

3 attachments

Perfect professional results for every style

SalonStraight Freestyle

Want to count the ways to get great styles? The SalonStraight Freestyle has three versatile ceramic styling attachments. Perfect for creating all the styles you can think of...and more.

Ease of use

- Easy lock for convenient storage
- Salon length 3 m power cord for maximum flexibility

Beautifully styled hair

- 190°C top temperature for perfect styling results
- Ceramic Nano-Diamond plates for extra smooth gliding and shiny results
- Ultra curved plates for twists and flicks
- 3 professional styling attachments
- Narrow tip plates to define and volumise styles from the root

Less hair damage

- EHD+ technology for more protection and shinier results

Highlights

3 professional attachments

3 professional styling attachments

190°C top temperature

Top temperature of 190°C guarantees optimal results, while minimising hair damage.

Ultra curved plates

Ultra curved plates for twists and flicks

Narrow tip plates

Narrow tip plates to define and volumise styles from the root

Ceramic Nano-Diamond plates

Besides being a girl's best friend, diamonds are also physically known as the hardest surface possible. This knowledge has been used to optimise our Ceramic straightening plates. These advanced Ceramic Nano-Diamond straightening plates offer optimal heat transfer and a super smooth, scratch resistant surface for extra smooth gliding and beautiful shiny results.

EHD+ technology

Advanced Philips EHD+ technology means that your styler will always distribute the heat very evenly - even at high temperatures, and prevents damaging hot spots. This gives added protection and thus helps to keep your hair healthy and shiny.

Easy lock

The straightener has an easy lock mechanism. Located at the base of the straightener, this flip lock makes storage quick and easy and will help to protect the straightener from accidental damage.

3 m cord

The longer length results in improved flexibility and ease of handling, so you can use it anywhere you want.
