- 220°C professional high heat for perfect salon results
- Digital heat settings to ensure super smooth results
- Ceramic Nano-Silver plates for gentle styling & shiny finish

### **Less hair damage**

- EHD+ technology for more protection and shinier results

# Highlights

## Ceramic Nano-Silver plates

Ceramic Nano-Silver plates for gentle styling & shiny finish

## Digital heat settings

Digital heat settings make it easy to quickly choose the function you need or adjust the styling temperature using the digital display. This enables you to select the perfect temperature for your specific hair and needs. The result is perfect styling at the touch of a button.

## 220°C professional temperature

This high temperature enables you change the shape of your hair, and gives you that perfect look like you've just come from the salon.

## EHD+ technology

Advanced Philips EHD+ technology means that your styler will always distribute the heat very evenly - even at high temperatures, and prevents damaging hot spots. This gives added protection and thus helps to keep your hair healthy and shiny.

## Easy storage hook

The rubberised hook is located at the base of the handle and provides another storage option, particularly convenient for use in the home or when staying at a hotel.

## Swivel cord

Useful swivel cord technology rotates the cord to prevent tangled wires.

## Easy lock

The straightener has an easy lock mechanism. Located at the base of the straightener, this flip lock makes storage quick and easy and will help to protect the straightener from accidental damage.

## Dual voltage

Dual voltage for worldwide use

## Ready to use indicator

This shows when the styler has reached the right temperature, so you can instantly see when you're ready to style.

## Heat resistant pouch

This Heat Resistant pouch is perfect for styling on the go. Forget waiting for your styler to cool down. Simply store using the heat resistant pouch included.

## Safe usage

Some hair straighteners and curling irons have been equipped with an automatic shut-off feature. This feature has been designed to provide peace of mind. If left on, the appliance will automatically switch off after 60 min.

## 3m cord

The longer length results in improved flexibility and ease of handling, so you can use it anywhere you want.
