#### Less Hair Damage

- Ceramic element to smooth your hair
- Ion conditioning for shiny, frizz-free hair
- EHD+ technology for more protection and shinier results

#### Long-lasting styles

- Cool Shot sets your style

# Highlights

## Volume diffuser

The volume diffuser dries hair healthily, reduces frizz and increases volume by spreading the airflow across the hair. It adds lift and maximises volume, especially when used on the crown and root area, making it perfect for creating curls and bouncy styles

## Six flexible speed and temperature settings

The speed and heat required can be easily adjusted to create the perfect style. Six different settings ensure full control for precise and tailored styling.

## Ultra narrow concentrator 15 mm

The concentrator works by directing the flow of air through the ultra-narrow opening on to specific areas. This results in very precise styling and is great for adjusting or finishing a style.

## Professional 2200 W

This 2200 W professional hairdryer creates a powerful airflow. The resulting combination of power and speed makes drying and styling your hair quicker and easier.

## EHD+ technology

Advanced Philips EHD+ technology means that your dryer will always distribute the heat very evenly - even at high temperatures, and prevents damaging hot spots. This gives added protection and thus helps to keep your hair healthy and shiny.

## Ceramic element

The ceramic element prevents overdrying. It issues infrared heat, which has a gentle warmth which helps dry your hair from within and protects it from overdrying, without compromising on speed and effectiveness.

## Ion conditioning

Give your hair an instant boost with ionic conditioning. Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is hair that is beautifully shiny, smooth and frizz-free.

## Cool Shot

A must-have professional function for hair stylists. The Cool Shot button provides an intense burst of cold air. It is used after styling to finish and set the style.

## Easy storage hook

The rubberised hook is located at the base of the handle and provides another storage option, particularly convenient for use in the home or when staying at a hotel.

## Removable air inlet grill

The air inlet grill of this hairdryer can be removed for cleaning. Remove and clean regularly to prevent build-up.

## Soft grip

The soft, non-slip grip is ergonomically designed. It has been tested by professionals for easy handling and salon performance.
