Highlights

210°C professional high heat

This high temperature enables you change the shape of your hair and gives you that perfect look like you've just come from the salon.

Ceramic plates

Ceramic plates for ultrasmooth gliding and more shine for your hair

Instant heat-up

The straightener has a fast heat up time, being ready to use in 60 seconds.

Swivel cord

The swivel cord technology conveniently rotates the cord and prevents unnecessary tangles

Gentle drying power 1000W

This 1000W hairdryer creates the optimum level of airflow and gentle drying power for beautiful results every day.

Universal Voltage

This straightener is ready to use anywhere in the world and is compatible with 110–240 voltage.

Compact design

Compact and ergonomic, this hairdryer benefits from a clever modern design. This results in a dryer that is light and easy to handle yet small enough to store virtually anywhere.

Narrow concentrator

The concentrator works by focusing the airflow onto specific areas. This results in precise styling, great touch-ups, or finishing a style.

Easy storage hook

The rubberised hook is located at the base of the handle and provides another storage option, particularly convenient for use at home or when staying at a hotel.

ThermoProtect

As built-in protection for your hair, ThermoProtect retains a constant caring temperature. This allows you to quickly dry your hair without over-drying, maintaining your hair's natural moisture level for shiny, healthy looking hair.
