# Highlights

## Power your brushing

The One is a powered version of your manual toothbrush. A tiny motor inside the handle transforms each of the hundreds of soft bristles into micro-vibrating mini scrubbers that help to gently clean and whiten your teeth at the touch of a button.

## Thorough and gentle cleaning

Want a strong, yet gentle clean? The Ones soft bristles are arranged in a dynamic pattern that can help reach into the areas between teeth providing a thorough cleaning.

## Routine made easy

Did you know it only takes 2 minutes to help you get a clean, whiter, and brighter smile? The Ones in-built smart timer buzzes every 30

seconds, encouraging you to move onto the next quadrant of your mouth. A longer buzz at 2 minutes lets you know when the job is done. Thats it!

## A color for every style

Choose the color to match your style. You can mix and match the brush head with the handle and create your own color combination.

## Brush for 90 days

Brush with the One for 90 days on a single AAA battery. That's three months of whiter, brighter smiling.
