- Suitable for wide neck and narrow neck bottles

Express - Manual Breast Pump

- Relaxing position thanks to its special design
- Soft massage cushion gently stimulates milk flow
- Compact lightweight design
- Few separate parts and intuitive design

Highlights

Relaxing position

The breast pump has a unique design, so your milk flows directly from your breast into the bottle, even when you are sitting up straight. This means you can sit more comfortably when pumping: no need to lean forward to make sure all your milk ends up in the bottle. Sitting comfortably and being relaxed when pumping helps your milk to flow more easily.

Soft massage cushion

Our massage cushion has a soft, velvety texture that gives a warm feel to the skin for comfortable, gentle stimulation of your milk flow. The iconic petal cushion is designed to mimic baby suckling, intended to gently help stimulate let-down.

Easy on-the-go

The breast pump is small and lightweight, which means it is easy to store and transport, making pumping on the go more discreet.

Easy to set up, express and clean

Few separate parts and intuitive design. Easily express milk for your baby, anytime.

Includes our Natural bottle

The wide, breast-shaped teat promotes natural latch-on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

3-in-1 steriliser

Due to its adjustable size, this 3-in-1 Philips Avent steriliser perfectly fits the items you would like to sterilise and always takes up the smallest amount of kitchen space. The 3-in-1 functionality gives you: 1) Small size configuration for sterilising soothers 2) Medium size configuration for sterilising breast pumps, toddler plates, knives and forks 3) Large size configuration for sterilising 6 baby

Natural steam sterilising

The steriliser uses natural steam to sterilise baby bottles and other products, killing 99.9% of harmful germs without using chemicals. Perfect for giving you peace of mind that all your baby bottles and other products are sterile.

Fits all bottle types

The steriliser has been designed to fit both wide neck and narrow neck bottles as well as different breast pumps and accessories. This gives you the freedom to choose the bottles and accessories that best suit you and your baby. At full capacity the steriliser holds six 11 oz/330 ml Philips Avent bottles.
