

# Manual Breast Pump

Breastfeeding starter set

SCF430/16

# Comfortable pumping, wherever you go

Natural Motion Technology, for quick milk flow

The Philips Avent Portable Manual Breast Pump with Natural Motion Technology, inspired by baby's suckling for quick let down. Fits all nipples and easily adjustable rhythm and vacuum. Finding the right nipple is important. See more below

#### **Easy to clean**

• Easy to clean and set up

## Other benefits

• Choose the right nipple flow for your baby

### **Comfortable expression**

- Easily triggers milk release before or between feeding
- Express without leaning forward
- Choose your rhythm, follow your milk flow
- Express, store and feed

#### **Portable and convenient**

• Ideal for moms who pump on-the-go

# Simple, gentle and effective

- One-size soft adapting silicone cushion
- Helps you release milk fast

Manual Breast Pump SCF430/16

# Highlights

### **Natural Motion Technology**

The innovative silicone flange - inspired by baby's unique suckling action - stimulates the nipple to help start your milk flow, fast. For comfortable and effective expression.

#### **Adapts to your nipples**

One size fits all. Because we all come in different shapes and sizes, the silicone cushion gently flexes and adapts to fit your unique anatomy. Fits 99.98% of all nipple sizes\* (up to 30mm).

#### Finding the right nipple is important

If your newborn baby is consistently not taking enough milk throughout the feeding sessions or has complications in getting milk, switch to a nipple with a higher flow rate. If persistent feeding issues occur, consult a healthcare professional.

#### Find the right nipple flow

Every baby feeds differently, and develops at their own pace. We've designed a range of flow rates so you can find the perfect one for your baby and personalize your bottle. All of the Natural Response Nipples are made of soft silicone.

#### Portable and easy to use

The breast pump is small and lightweight, which means it is easy to store and transport, making pumping on-the-go simple and discreet.

#### Fast milk release

A unique, portable manual breast pump – ideal for mothers who need to gently release their milk while away from home, or before breastfeeding.

#### **Suction and flow control**

Feel free to adjust the pumping rhythm and suction to suit your needs, comfort and milk flow.

Manual Breast Pump SCF430/16

# Highlights

#### **Sit comfortably**

Relax and sit comfortably while you express thanks to our design that lets you sit upright, rather than having to lean forward.

### Easy to clean and set up

Because there are only a few parts, our new pump is easy to set up and clean.

#### **Express, store and feed**

Express directly into the storage cup, which prevents leakage or spillage. When baby's hungry, simply attach the soft nipple to the cup for feeding. Save your milk in the fridge or freezer and choose your preferred storage solution.
