Clean Cut, Shaves Close

The Philips Norelco Cordless electric shaver is equipped with a CloseCut shaving system and flexing heads that adjust to every contour of your face. Powered by a lithium-ion battery, this shaver offers the convenience of cordless operation.

Designed for comfort

- Flexing heads follow the curve of your face

Easy to Maintain

- Highly durable blades

Corded or Cordless Operation

- Rechargeable Cordless/Cord: Use anywhere

Smooth, close shave

- CloseCut shaving system offers an even shave

Travel-friendly design

- Worldwide voltage adjusts automatically

Highlights

CloseCut shaving system

The Philips Norelco 6945 Cordless Shaver features the CloseCut system for a precise, close shave.

Flexing shaving heads

The flexing heads adjust automatically to every curve of your face for a smooth skin without irritation.

Rechargeable Cordless/Cord

Since the Philips Norelco 6945 offers the convenience of corded or cordless operation, you can take it with you wherever you go. A full eight-hour charge will last for up to 10 days (or 30 minutes) of cordless shaving. A battery indicator lets you know when it's time to recharge.

Great for travel

Great for travel, the Philips Norelco 6945 features a protective cap for safe portability. It has a worldwide voltage function that adjusts from 100 to 240 volts AC, making it ideal for international trips.

Replacement blades

To get the closest shave possible, replace the blades with HQ56 replacement heads every 12 months.
