Baby Bath and
Room Thermometer

SCH550/00

Accurate temperature

Floats in water

This digital thermometer measures the baby's room and bath temperature. Due to its design, it is also attractive as a toy for baby to play with in the water.

Fast and reliable measurement

- Accurate temperature readings for bath or bedroom

Safe to play with

- Complies with all relevant toy and safety standard
- Floats in water

Highlights

Accurate temperature readings for bath or bedroom

The digital bath and room thermometer allows you to conveniently determine the ideal temperature of your baby's bath or room. Your baby will feel most comfortable in bath if the water is between 36.5 °C and 38 °C. A temperature of 39°C and above is too hot and your baby could get burned! At a room temperature of about 18°C babies feel most comfortable when sleeping.

Complies with all relevant toy and safety standard

The products that comply to the toys standard have been thoroughly tested to ensure they meet these norms and are totally safe.
