

PHILIPS

DECT baby monitor

SCD590/54

 Product Picture

Guaranteed zero interference

With DECT digital technology and 2 parent units

This digital technology provides a secured, private connection, because you want to be the only one listening to your baby. Automatically chooses an unused channel and switches as it detects another device using the same channel.

Complete peace of mind

- Indicates a continuous connection between the two units
- Uses lights to indicate if the baby makes noise
- Provides the ability to allow you to talk back to the baby
- Guarantees zero interference from any other device

Ultimate mobility in and around the house

- Belt clip and neck cord for hands-free convenience
- Small, mobile parent unit to freely roam around the house
- Now both parents can monitor baby
- Rechargeable parent unit for minimum 24 hours of monitoring
- 300 m range ensures secure reception in and around the house
- The neck cord provides hands-free convenience and mobility

Soothing words

- Comforts the baby in the dark with soothing stars

Highlights

Guaranteed zero interference

Guarantees zero interference from any other device (other baby monitors, cordless phones and cell phones). Provides a secure and private connection using data encryption. You will be the only one who can hear your baby and you only hear your own baby.

Digital signal confirmation

Indicates a continuous connection between the baby and the parent unit with visible and audible link indicators.

Talk-back

Provides the ability to allow you to talk back to the baby.

Sound level lights

Uses lights to indicate if the baby makes noise, even with volume off.

Neck cord

The neck cord provides hands-free convenience and mobility: clip the parent unit to your belt or wear it around your neck.

Belt clip and neck cord

The belt clip and neck cord provide hands-free convenience and mobility: clip the parent unit to your belt or wear it around your neck.

Two parent units

Now both parents can monitor baby.

Rechargeable parent unit

The rechargeable parent unit gives you a minimum of 24 hours of cordless monitoring with a range of up to 300 m (900 feet).

Small, mobile parent unit

Allows you to freely roam around the house due to the small size, but still hear when your baby needs you.

With a range up to 300 m

With a range up to 300 m you are ensured a secure reception in and around the house.

Starry night-light

Nightlight with soothing stars to comfort your baby.
