#### **For exceptional care of teeth and gums**

- Up to 7x more plaque removal than a manual toothbrush

# Highlights

# Specifications

## Say goodbye to plaque

Densely-packed, high-quality bristles remove up to 7x more plaque than a manual toothbrush. And the specially curved power tip makes reaching the teeth at the back of your mouth a breeze.

## Brushing with peace of mind

All Philips Sonicare brush heads are safe and gentle on teeth and gums. During tests, each brush head is put through its paces to ensure durability and an exceptional performance every time you brush.

## Brush head replacements

Brush heads become less effective after 3 months of use, but with BrushSync™ you'll be reminded before this happens. Your smart toothbrush will track how often and how hard you brush, and will notify you when it's time for a replacement. Don't have a smart Philips Sonicare toothbrush? Just monitor your blue replacement bristles, and when they turn white you'll know it's time for a fresh brush head.

## BrushSync™ mode-pairing

You'll always get the best possible clean with our BrushSync™ mode-pairing feature\*\*. The Philips Sonicare C2 Optimal Plaque Defence brush head syncs with your BrushSync™ enabled Philips Sonicare toothbrush handle\*\*, selecting the optimal brushing mode and intensity level for exceptional cleaning. All you need to do is start brushing.

## The only true sonic technology

Philips Sonicare's advanced sonic technology pulses water between teeth, and its brush strokes break up plaque and sweep it away for an exceptional daily clean.

## Easy to click-on

Your Optimal Plaque Defence brush head fits perfectly with any Philips Sonicare toothbrush handle, except Philips One and Essence. Simply click on and off for easy replacement and cleaning.
