# Highlights

## PowerCyclone 5 Technology

PowerCyclone 5 technology maximizes airflow and performance by separating dirt from air in one go. It delivers remarkable cleaning results through highly efficient steps: 1) Air enters fast into the PowerCyclone thanks to the air inlet design. 2) The curved airpass quickly accelerates the air in the cyclonic chamber to separate the dust from the air. 3) The optimized exit blades separate dirt from the cyclone and into the dust bucket.

## Extra long ergonomic grip

This ergonomically shaped grip is convenient in use. Its extra long design gives you farther reach, so you can easily clean hard to reach places.

## Crevice tool and small nozzle

Small nozzle and crevice tool help you to clean your furniture.

## Easy to clean filter

Washable foam filter for life-long performance.

## Easy to empty dust container

The dust container is carefully designed to dispose collected dirt without creating a dust cloud. It is one-hand operated and thanks to its unique shape and smooth surface, you can easily control the emptying of the dust container.

## Easy Carrying

Extra handle for easy carrying.

## Light weight and compact

You can easily carry and roll the vacuum cleaner around when cleaning thanks to its light weight and small size.

## Small in size

Thanks to its small size the appliance can easily be stored, saving valuable space.
