

Philips Sonicare AirFloss
Interdental - Rechargeable

Don't floss? Then AirFloss.

Removes plaque where brushing can't

For those who don't floss consistently, AirFloss is an easy way to start cleaning between teeth. AirFloss can be used with mouthwash or water and features unique air and micro-droplet technology to help remove plaque in hard-to-reach areas.

Highlights

Air and micro-droplet tech

AirFloss utilises unique air and micro-droplet technology to send a burst of pressurised air and water or mouthwash between your teeth. The one-touch activation button is as simple as a mouse click.

Removes more plaque between teeth

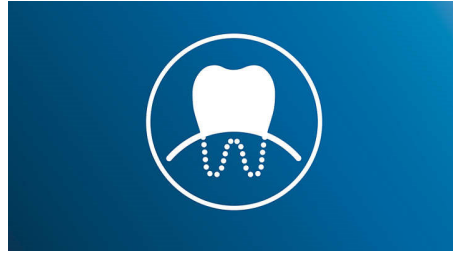

Removes more plaque between teeth

An easy way to start

Interproximal cleaning is very important to overall oral health. AirFloss is an easy way to clean deeper between teeth, helping to form a healthy habit. After three months of using AirFloss, 96% of inconsistent flossers continued to use AirFloss four or more days per week.

Better gum health

Sonicare AirFloss is clinically proven to improve gum health in just two weeks.

Ergonomic handle

Designed to be easy to manoeuvre in tight spaces, AirFloss has a comfortable ergonomic handle and a non-slip grip.

Guidance tip

The slim angled nozzle and guidance tip make finding the correct placement easy. Just slide along the tooth's surface near the gum line until the tip fits into the groove between the teeth.

Helps prevent cavities

By gently bursting away plaque that brushing missed, Sonicare AirFloss helps prevent cavities from forming in the spaces between your teeth.

Specifications

Power

- Voltage: Multi-voltage charger
