- Detachable water tank for easier filling
- 2.5 m cord for longer reach

Refreshes clothes without washing or dry cleaning

- Continuous steam removes odours and kills 99.9%* of bacteria

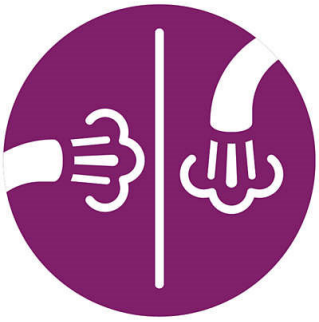

PHILIPS

Handheld garment steamer
1200 W, up to 22 g/min Horizontal and Vertical Steaming, 70 ml Detachable water tank

GC360/36

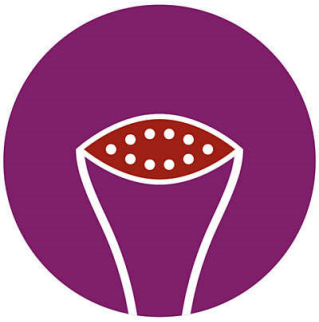

Highlights

Vertical and horizontal steaming

Steam vertically for quick de-wrinkling and to refresh hanging clothes without an ironing board. Steam horizontally to get perfect results on difficult-to-iron areas, like cuffs and collars. In either position, powerful continuous steam provides great results.

SmartFlow heated plate

Thanks to SmartFlow technology, the steam plate is heated up to an optimal temperature, safe for all fabrics, and prevents wet spots. The heated steam plate helps to press the fabric while steaming horizontally and provides even better steaming results*.

Continuous steam

An electric pump automatically provides continuous steam for easy and quick de-wrinkling.

Brush accessory

The brush attachment opens the fabric fibres and enables better steam penetration. It is especially good for thicker garments like jackets and coats. It can also help to remove dirt and pills.

Safe on all ironable fabrics

The steamer is safe to use on all ironable fabrics and garments. The steam plate can be safely pressed against any clothing with no risk of burning – a great solution for delicate fabrics, like silk.

No ironing board needed

Using a clothes steamer on hanging garments eliminates the need for an ironing board, so de-wrinkling is easy and hassle free.

Ergonomic design

The handheld garment steamer is ergonomically designed to be light, compact and comfortable to use. Just press the trigger and watch wrinkles and creases disappear.

Detachable water tank

The water tank detaches for easy filling under the tap.
