To fit your baby's growing needs

- Five different teat flow rates are available

Highlights

Fits your baby's growing needs

Five different teat flow rates are available.

0% BPA

This product contains 0% BPA

Bottle and teat brush

Specially curved brush head and moulded handle-tip reach the corners of all types of bottles, teats and feeding equipment for thorough cleaning.

Bottles clinically proven

Unique anti-colic system consists of the Philips Avent teat and adaptor ring allowing air to flow into the bottle instead of your baby's tummy for better digestion.*

Orthodontic soother

The orthodontic, collapsible teat of the translucent pacifier respects the natural development of a baby's palate, teeth and gums. All our pacifiers are made from silicone and are taste and odour-free.

Easy latch on

Unique valve on the teat flexes to your baby's feeding rhythm. Milk will only flow at the pace chosen by your baby to minimise overeating and spit-up, burping and gas

Helps settle your baby

Sleep and nutrition are vital to your baby's health and happiness. A randomised clinical trial was carried out to see whether infant baby bottle design affects "infant behaviour". The Philips Avent Classic baby bottle was shown to significantly reduce fussing by approximately 28 minutes a day as compared to the comparator bottle (46 min vs. 74 min, $p=0.05$). This was especially true at night.**

Unique anti-colic system

As your baby feeds, the unique valve on the teat flexes to allow air into the bottle instead of your baby's tummy.*

Design

Bottle design: Wide neck, Ergonomic shape

Features

Can be sterilised

Material

BPA-free*

What is included

Baby bottle: 4 pcs
