AVENT

Anti-colic bottle gift set

Infant Starter Set

SCD394/01

 Product Picture

Clinically proven to reduce colic and discomfort*

Designed to reduce gas

Our anti-colic range's Airflex venting system and textured nipple is designed to minimize feeding interruptions and discomfort. With its integrated anti-colic valve, air is vented into the bottle and away from the baby's tummy.

Other benefits

- This bottle is BPA free
- Compatible with Anti-colic range
- Compatible range from breastfeeding to cup
- Dispenser holds enough formula for three 260ml/9oz feeds
- Orthodontic, symmetrical and collapsible pacifier nipple

Clinically proven to reduce colic and discomfort*

- Anti-colic system proven to reduce colic*
- 60% less fussing at night*
- Nipple shape designed for secure latch
- Ribbed texture prevents collapse for uninterrupted feeding

Easy to use, clean and assemble

- Easy to assemble with only fewer parts
- Leak-free design
- Easy to clean bottles especially with curved brush head

Highlights

Less colic

Our clinically proven Airflex venting system is designed to reduce gas and colic. As your baby feeds, the valve integrated into the nipple flexes to allow air into the bottle to prevent vacuum build up and vents it towards the back of the bottle. It keeps air in the bottle and away from baby's tummy to help reduce gas, spit-up and burping.

Less fussing

Philips Avent anti-colic bottle reduces fussing. Babies fed with Philips Avent anti-colic bottles experienced 60% less fussing at night, than babies fed with a leading competitor's vented bottle. *

Uninterrupted feeding

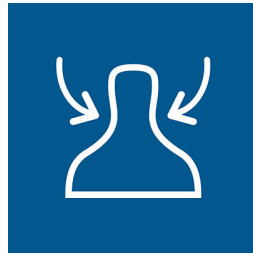

The nipple shape allows secure latch and the ribbed texture helps prevent collapse for uninterrupted, comfortable feeding.

Leak-free

Our anti-colic bottle is designed to prevent leakage whilst feeding, for a truly enjoyable feeding experience.

Secure latch

The nipple is designed not to collapse, for a secure latch and uninterrupted feeding.

Easy to assemble

Our Anti-colic bottle has fewer parts for quick and simple assembly.

Growing up with your baby

Mix and match our breast pump, bottle and cup parts, and create the product that works for you, when you need it!

Orthodontic Pacifier

Flat, drop-shaped symmetrical nipples respect the natural development of your baby's palate, teeth and gums, even if the pacifier ends up upside-down in the mouth.

Easy to clean

With its wide neck, our bottle is easy to clean especially with our curved brush head and molded handle-tip that reach the corners, nipples and feeding equipment for thorough cleaning. Ease of cleaning helps to ensure more hygienic feeding.

BPA free

Philips Avent anti-colic bottle is made of BPA free material (PP).

Specifications

Design

Bottle design: Ergonomic shape, Wide neck

Material

Bottle: Polypropylene, BPA free

Nipple: Silicone, BPA free
