#### Longer Lifetime and Sustainability

- Calc-clean solution
- Eco Mode for reduced power consumption

#### Safe and Hygienic

- Remove 99.99% bacteria\*\* in 10 seconds

# PHILIPS

# Highlights

## Power up to 2000W

Power up to 2000W enabling constant high steam output

## Large water tank

250ml water tank lets you iron more garments with less refills

## Comfortable handle

The texturing on the handle of the iron ensures a comfortable and ergonomic grip, so that your hand fits well and does not slip during ironing.

## Variable steam setting

Continuous steam up to 20g/min and 90g of steam boost for fast crease removal.

## Slim tip soleplate

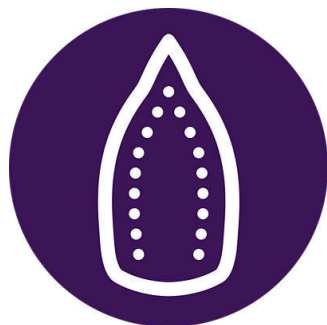

The slim tip of the soleplate allows to reach easily in the most tricky areas, such as between the buttons, when making pleats and in the corners.

## Calc-clean solution

Calc-clean for extending irons life

## Non-stick soleplate

The soleplate of your Philips iron is coated with a special non-stick layer for good gliding performance on all fabrics.

## Easy temperature control

An elevated temperature control and variable steam setting is easy to operate and precise. You will always have the right temperature and steam for your garment.

## Vertical steam

Vertical steam function allows you to refresh garments right on the hanger and remove creases from hanging fabrics such as curtains. No ironing board required.
