

PHILIPS

Fullsize Ergo Massage
gun 10kg / 12mm

Sports Massage &
Recovery

3 hours run time

12mm deep muscle impact

10kg power output

6 full size massage heads,
including Titanium and PU rubber

PPM7322DG

Ergonomically designed, to be your own therapist

With professional grade massage heads

Designed for sport enthusiasts, the massage gun is easy to operate via a single button. The ergonomically designed grip is convenient for users to hold. Each massage head is carefully designed to support the various body parts.

Small and light, and easy to use

- High intensity plastic hardshell case for full protection.
- Multi-angle grip, easy to hold

Strong performance, deep relaxation

- Up to 10kg massage pressure output
- Up to 12mm amplitude, deep into the fascial layer
- Intelligent strength feedback display for protective massage

Professional configuration

- Enhance the massage amplitude and comfort level
- 6 different massage heads, meet your need for various parts
- Deliver strong penetrating waves while avoid skin allergies

Highlights

Multi-angle grip design

The multi-angle grip is ergonomically designed to conveniently support various massaging positions to achieve the best massage effect.

Powerful dynamic system

Specially tuned and powerful DC brushless motor, the SuperDynamic all-metal super power system ensures that the massage gun can reach the maximum thrust of 10kg. It enhances the effect of daily relaxing massage.

Deep massage

New structure design, the compact body release deep thrust, and the power goes directly to the tissue layer. With 12mm high amplitude and various professional grade massage heads, this massage gun is ideal for deep tissue treatment.

Intelligent force feedback

Intelligent force feedback display is for intuitive and precise control of massage force to enhance the warm-up and recovery effect. Meanwhile it helps to avoid excessive pressure and protect muscle groups.

6 massage head accessory set

Each massage head is carefully designed taking into account the needs of the various body parts, based on the principles of physiotherapy.

Professional titanium head

The professional titanium head is popular with physiotherapists. The metal massage head with higher hardness enables the massage gun to reach deep into the muscles, target the deep to tissue layers that ordinary massage heads cannot reach and completely soothe muscle groups. Titanium is the most friendly metal to the body and does not cause discomfort to people with skin allergies.

High elastic rubber ball head

The high elasticity of the rubber complements the vibration frequency of the massage gun, optimizing muscle tissue penetration for the best possible massage effect. The soft rubber surface is easy to clean supporting bacteria and harmful substances removal after long-term use. Protecting the skin's health.

Anti-shock portable case

The small and portable case features a high-strength plastic shell with anti-drop and anti-crush properties for providing full protection for the machine.

Specifications

General specifications

Product Dimension (LxWxH): 230x117x62 mm

Net weight: 750 grams

Main materials: ABS plastic

Color: Grey

Quantity of massage heads: 6, including 40mm professional Titanium head

Main parameters

Working voltage: 14.8V

Massage amplitude: 12mm

Massage frequency: 1600Hz-3200Hz

Working power: 26 Watts

Maximum thrust: 10kg

Battery: 4x 2500mAh

Charging current: 2A

Charging port: USV C

Charging voltage: 5V (USB C)

Country of origin

Made in: China

Service

Warranty period: 2 years
