- Soluble lead reduction
- Pesticide removal
- VOC reduction
- Chlorine reduction

Input water conditions

- Input water pressure: 2-4 bar
- Input water temperature: 5-38 °C
- Input water quality: Municipal tap water

Highlights

QuickTwist filter replacement

For ease-of-use the filter can be removed with a simple quick-twist without shutting off water to the system. The integrated disposable filter eliminates the internal system from getting contaminated.

Work without power

The purifier works without power, so clean water is always available whenever you turn on the tap.

Integrated waterway

Integrated waterway with one-piece design, which reduces the risk of water leakage.

4-stage microfiltration system

The 4-stage AquaShield microfiltration system effectively removes heavy metals like lead, VOCs, pesticides and chlorine, while retaining beneficial minerals in the water.
