Highlights

Adjustable carbonation level

Customize the carbonation levels based on your personal preference. Simply repeat the carbonation process to have more tongue-tingling bubbles!

Healthier homemade drinks

A healthier and fresher option to replace sugary canned carbonated drinks with homemade sparkling water.

3 steps: fill, twist and press

3 easy steps to make fresh sparkling water at home: fill, twist and press!

No electricity required

The soda maker requires no electricity to operate, so you can get fresh sparkling water anytime and anywhere. All you need to do is press the button and then enjoy.

Built-in safety relief valve

When the machine is operating, the safety relief valve releases the pressure inside the bottle automatically. The buzzing sound also indicates the sparkling water is ready to be enjoyed.

BPA-free material

BPA-free material.

Compact size

Compact enough to place anywhere as needed. Set it up easily no matter where you are.

Less plastic waste

One CO2 cylinder makes up to 60 litres of delicious sparkling water, replacing 120 single-use plastic bottles.*

Trendy color

Fashionable design with trendy colors to create good vibes in your life.
