

PHILIPS

UV water purifier

UV Class A

WP3890/01

Pure water or No water

with Power UV+

Pure water made easy, always

Pure water

- Advanced UV technology and activated carbon to purify water

Guaranteed

- Conforms to safety standards of Bureau of Indian Standards
- Microbiological performance tested as per NSF55 Class A
- WQA has certified and awarded Gold Seal to this product
- PureProtect alert warns you when filter needs replacement

Simplicity

- Tilt & Twist mechanism for easy filter replacement

Made easy

- PowerSave ensures low electricity consumption
- Hi-flow ensures a maximum flow rate of 1.2 liter per minute
- Musical reminder lets you know when dispenser is on

Highlights

Power UV+ technology

Advanced state-of-the-art UV (PLS) technology destroys known waterborne viruses, bacteria, parasites and amoebae while the activated carbon and sediment filter removes turbidity, chlorine, volatile organic chemicals (VOC's), cysts, larger micro-organisms and improves taste.

Tilt & Twist filter change

Replacing the filter is something you can easily do yourself thanks to the simple Tilt & Twist mechanism.

PowerSave

This appliance has low electricity consumption and is rated at 25 watts. To make it even more energy efficient, the UV lamp switches off when the appliance has not been used for 10 minutes.

Hi-flow

The maximum flow rate of 1.2 liter per minute ensures that you have safe drinking water available at any time.

Certified by BIS

Conforms to safety standards of Bureau of Indian Standards

Musical reminder

While the purifier is dispensing water, an optional musical reminder will notify you that the dispenser is on.

Gold Seal by Water Quality Association (WQA), USA

WQA (Water Quality Association, USA) only awards the Gold Seal to those systems, components or additives that have met or exceeded industry standards for contaminant reduction, structural integrity, and material safety. This product is certified by WQA to conform to NSF/ANSI 42 for the removal of chlorine and particulates (removes all classes of particulates from Class I till Class VI - particle size 0.5µm till 80 µm), NSF/ANSI 53 for the removal of turbidity, volatile organic chemicals (VOC's) and cysts and NSF/ANSI 55 Class A for microbiological disinfection.

Tested by KIWA Water Research, The Netherlands

Tested by Kiwa Water Research: Microbiological performance tested by Kiwa Water Research (The Netherlands) according to the NSF standard 55, Class A protocol (2004).

PureProtect alert

After 2700 liters of water consumption, PureProtect alert sends out a signal. There will still be enough capacity for another 300 liters after the signal.

Specifications

Weight and dimensions

Product weight: 3.6 kg
Product dimensions: 287 x 156 x 422 mm
F-box weight: 5.3 kg
F-box dimensions: 338 x 207 x 460 mm

Technical specifications

Voltage: 230 V
Frequency: 50 Hz
Power rating: 25 W
PLS UV lamp: 9 W
Output water flow rate: Max 1.2 l/min
Max. input water temperature: 45 °C
Max. input water pressure: 2.0 bar
Min. input water pressure: 0.5 bar
Min. input water temperature: 5 °C
