

Electric pump

- Automatic water cutoff
- Applicable for gallon bottles

AWP1721WH/00

Say goodbye to heavy lifting

Ultimate space-saving and convenient solution to extract water from gallon bottles.

Benefits

Thoughtful design for your convenience

- No more heavy lifting or manual pumping
- Fits most standard sizes of gallon bottles
- Battery lasts up to 1 month per change
- Ultimate space-saving design

Safety guaranteed

- High-quality food grade material
- Automatic water cutoff prevents overflow

PHILIPS

Features

Effortless water extraction

With this portable electric pump, there's no need to lift the heavy gallon bottle or manually pump the water out of the bottle. With a simple press of button, water is automatically extracted from the gallon bottles.

High Compatibility

Compatible with different capacity bottles: 7.5L, 11.3L, 15L, 18.9L, or gallon bottles with a neck length of 2.16 inches/5.5 cm.

Long-lasting battery

The USB rechargeable battery can extract up to 7 bottles of 5-gallon water with a single charge, which equals about one-month usage.

Space-saving

Extra compact and slim design virtually fits anywhere.

Food grade material

Made of high-quality food grade material.

Automatic water cutoff

The pumping process will stop automatically in 60 seconds to prevent overflow, which makes your usage worry-free.
