# Highlights

## Quick milk flow\*

Milk starts to flow in as little as one minute thanks to our unique Natural Motion Technology.\*\* With a gentle latch-on and just the right massage and suction, it's no surprise that 97% of moms say the pump is effective\*\*\*, and 100% of midwives recommend it.

## Adapts to your nipple

Whatever your shape, the pump's soft, flexible silicone cushion meets your breast and nipple comfortably. Fitting 99.98%\*\*\*\* of breast sizes\*\*\*, it adapts for a latch-on that's soft yet secure.

## Personalize to your needs

Get the most from every session with 8 modes for stimulating the flow of milk and 16 modes for expressing it. You can fine-tune as you go.

## Clean and setup easily

We designed our pump to be free from complexity. So with few parts it's also a breeze to clean and assemble.

## Express anywhere discreetly

Our pump's motor is practically silent in use. So you can express at home (or anywhere) discreetly, and with one less distraction.

## Start with your last session settings

The memory function automatically stores your last stimulation and expression settings. So all you need do is get comfortable and push start.

## Pause when you want to

You're in control. With one-touch pause/play, you can take a break from your session then resume it whenever you're ready.
