HH1487/02

## Take charge with ease and confidence

With easy-to-navigate menus, a sleek, compact design and quiet operation, DreamStation makes it simple to start, customize and continue your obstructive sleep apnea (OSA) therapy.

### Performance

- Support for the long term
- Make progress every day
- Small and lightweight
- Performance and appeal

# Highlights

## Bluetooth enabled

Built-in Bluetooth makes connectivity to the DreamMapper self-management tool easy. DreamMapper provides goal-setting tools, helpful videos and ongoing feedback to keep you motivated and engaged.

## Daily Progress Feedback

Each morning you are greeted with Daily Progress Feedback - a summary of how far you've come to motivate you to stick to your therapy. The intuitive, color display shows a simple trend of their nightly hours of use, followed by a summary of the last 30 days of good nights with more than four hours of use.

## Small and lightweight

DreamStation's top-mounted humidifier hose swivel and front-facing display make it easy for you to operate while lying down or sitting up in bed. And, it's small and light, making it easy to pack for travel.

## Performance and appeal

DreamStation offers a sleek, low-profile design. Its vibrant color screen displays daily progress and features easy-to-use menus.

# Specifications
