# Highlights

## Integrated vacuum system

Trim your beard, moustache and sideburns while keeping tidy with this trimmer. Its powerful vacuum catches cut hair as you go along, giving you a mess-free trim.

## Innovative lift-and-trim system

Trim your stubble in one quick stroke. Our lift-and-trim system raises hairs into the optimal position so the double-sharpened blades effortlessly cut hairs for an easy, even finish.

## Double-sharpened blades

Strong steel blades are double-sharpened and made to last a very long time to cut through even thick hair. They sharpen themselves by lightly brushing against each other as you trim.

## Lock in length for an even trim

Select your preferred trim length by simply turning the zoom wheel on the handle until the length you want is displayed from 0.5 - 10mm with 0.5mm precision. Then use the lock in comb for an even trim.

## Corded and cordless use

Charge your beard trimmer for 1 hour to get 60 minutes of cordless use. If you need more energy while trimming, you can simply plug

the trimmer into the wall. This trimmer has been designed to run both cordless and plugged in.

## Easy to clean

Detach the head of your Philips beard trimmer and rinse it under the tap for easy cleaning. Then dry it before you put it back on the appliance.

## Built to last

We back this Philips trimmer with a 2 year guarantee: our grooming products are built to last. You'll never need to oil it, and it's compatible with all worldwide voltages.
