Highlights

DualCut technology

This all-in-one hair trimmer features advanced DualCut Technology for maximum precision. It comes with double blades, and is designed to stay as sharp as day 1.

Titanium-coated blades

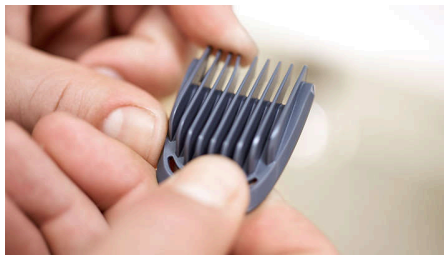

Designed to stay as sharp and effective as on day 1, the self-sharpening, titanium-coated steel blades deliver a protective trim, time after time.

PowerAdapt Sensor

Get a consistent trim no matter how thick or long your beard is. The steel beard trimmer checks hair density 125 times per second and auto-adjusts to maintain constant power.

12 impact-resistant combs

Get an even trim every time, with unique reinforced cutting guards designed to prevent bending and buckling that's common with impact.

21 pieces for face, head & bod

All-in-One for all your trimming needs: a stainless steel handle, a metal trimmer, a foil shaver, a detail metal trimmer, a nose and ear trimmer, a body shaver with skin protector, 3 hair guards, 3 beard guards, 2 stubble guards, an adjustable beard comb, an eyebrow guard, 2 body combs, a storage bag, a cleaning brush and a charging cable.

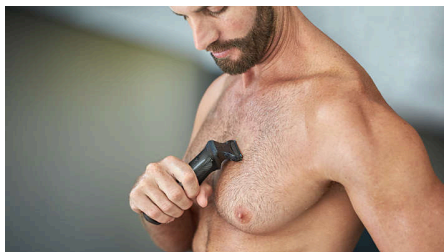

Precision shaver

Use the precision shaver after trimming, to perfect the edges of your cheeks, chin and neck.

Full-metal detailer

The narrow design of the steel precision groomer makes it easy to precisely edge and finish small details.

Bodyshaver with skin protector

Shave comfortably below the neck, with our unique skin protector system that guards even your most sensitive body areas and lets you shave to a closeness of 0.5mm

Nose and ear trimmer

Avoid nicks and cuts, as the all-in-one trimmer quickly removes unwanted nose and ear hair.

6 hour runtime

Tackle hair on any part of your body with a single charge. This Philips trimmer has a powerful battery that can be used for up to 6 hours per charge.

Fully washable trimmer

Philips Multigroom and all of its attachments are fully washable, so simply rinse them under the faucet for easy cleaning.

Premium stainless steel frame

It's comfortable and easy to grip your styling trimmer, thanks to the stainless steel frame and rubber grip that improves control.
