Flows like a breast, aids in reducing feeding issues

A teat that works like a breast*

Provides calm and comfortable feeds. The Natural Response Teat supports the baby's unique suck, swallow and breathe rhythm, while the AirFree vent is designed keep air away from their tummy for extra protection against colic, gas and reflux.

Easy to combine breast and bottle feeding

- Nipple releases milk when baby actively drinks
- Natural latch on with breast-shaped teat

Other benefits

- Explore our bottle range
- Easy to hold even for little hands
- Same products, new navigation
- Choose the right teat flow for your baby
- Simple to use, easy to clean and quick to assemble
- No-drip teat design prevents spills and lost milk
- Compatible across the Philips Avent range
- Natural Response Teats and Bottles are BPA free*
- Be patient as your baby adjusts

AirFree vent designed for less air ingestion

Finding the right teat is important

Natural Response

Bottle Air Free Vent 125ml, teat 0 months, 1 piece

SCY670/01

Highlights

Natural latch on

The wide, soft and flexible teat is designed to mimic the shape and feel of a breast, helping the baby to latch on and feed comfortably.

Easy to hold

The ergonomic bottle is easy to grip at any angle to give maximum comfort during feeding. Easy for your hands and tiny hands to hold.

Finding the right teat is important

If your newborn baby is consistently not taking enough milk throughout the feeding sessions or has complications in getting milk, switch to a teat with a higher flow rate. If persistent feeding issues occur, consult a healthcare professional.

Simple to use and clean

Wide bottle neck makes filling and cleaning easy. Only a few parts for quick and simple assembly, as AirFree vent is a single piece.

Natural Response Nipple

The Natural Response Nipple works with your baby's natural feeding rhythm, making it easy to combine breast feeding and bottle feeding. The nipple has a unique opening which only releases milk when the baby actively drinks. So when they pause to swallow and breathe, the milk pauses too.

Airfree vent

The AirFree vent is designed to offer extra protection against feeding issues by preventing air from getting into your little one's tummy whilst feeding in an upright position

Find the right teat flow

Every baby feeds differently and develops at their own pace. We've designed a range of flow rates so you can find the perfect one for your baby and personalise your bottle. All of the Natural Response Teats are made of soft silicone.

Same products, new navigation

We have moved to a pace-based flow navigation system. Start with the teat that comes with the bottle. Try a lower flow if milk is leaking from your baby's mouth or your baby is gulping. Try a higher flow if your baby is playing with the teat instead of drinking or seems frustrated. As we make this change, you may receive either style of pack.

No-drip teat

The teat opening is designed to release milk only when the baby is feeding. So you can confidently avoid milk loss whether at home or on the go.

Natural Response

Bottle Air Free Vent 125ml, teat 0 months, 1 piece

SCY670/01

Highlights

Compatible across the range

Mix and match our breast pump, bottle and cup parts and create the product that works for you, when you need it.

BPA-free*

The Philips Avent Natural Response bottles and teats are made of BPA free* material. Plus, all the Natural Response teats are made out of soft silicone.

Be patient as your baby adjusts

Our new Natural Response Baby Bottles are different from free-flow baby bottles. Just like breastfeeding, it could take a few tries to get it right. That's perfectly natural.

Explore our bottle range

Our bottles are available in different sizes to better suit your baby's needs. Choose from a range of options to find the perfect fit for your little one, ensuring comfort and convenience at every stage.
