SenseIQ technology

- Ultimate speed and efficiency with Top-Spin Digital Motor

Our closest electric shave

Shaver S9000 Prestige

Wet & Dry Electric shaver with SenseIQ

SP9872/86

Highlights

Lift & Cut System

Our patented, unique Lift & Cut rotary shaving system lifts the hair gently out of its root before cutting it precisely at skin level close (up to 0.00 mm to the skin) without the blades even touching your skin. Precision at its best, for a clean shave until evening*.

NanoTech Dual Precision blades

Philips rotary shavers are specifically designed to match your natural hair growth, capturing all the hairs growing in any direction, thanks to 360-degree rotating blades cutting in all directions. With up to 150,000 cutting actions per minute, the NanoTech Dual Precision blades cut up to 25% more hair per stroke**.

Ultraflex Suspension system

Ultraflex Suspension System with fully flexible heads completely adapt to every contour of your face, catching even difficult hairs in the neck. The result is an exceptionally smooth and comfortable shave.

Hydro SkinGlide coating

Our best protective coating lies between the shaver heads and your skin. Made of up to 500,000 microtech beads with hydrophilic properties per square centimeter, creating smoother gliding on skin by 50%*** for maximum skin comfort.

Power Adapt sensor

The electric shaver has intelligent facial-hair sensing technology that reads hair density 500 times per second. The Power Adapt Sensor auto-adapts the cutting power for an effortless and gentle shave.

Top-spin digital motor

Maximum high-speed rotations for maximum efficiency. Our most advanced Top Spin Digital Motor ensures a precise shave for any facial contour or hair density.

Personal Comfort settings

Adjust the speed of your shaver to low, medium or high speed with the Personal Comfort Settings. Personalize your shaving routine to your own skin and preferences.

One-Touch open

Clean the shaver with ease. At the touch of a button, flip open the shaver head and rinse with water.

Wireless Qi charging pad

Plugging in cords in wet areas is a thing of the past. Simply lay your cordless electric shaver on the Qi charging pad for a wireless charge in 3 hours.

Shaver S9000 Prestige

Wet & Dry Electric shaver with SenseIQ

SP9872/86

Highlights

Wet & Dry

Adapt your shaving routine to your needs. With Wet & Dry, you can go for a comfortable dry shave or a refreshing wet shave. You can shave with gel or foam even under the shower.

Sustainability

At Philips, we drive sustainability in all aspects of product creation. All our 9000 Prestige shavers are made with high-quality, long-lasting components and recyclable packaging, while our

blades are made from 80% recycled steel and produced in a factory that uses 100% renewable energy.

Precision trimmer attachment

Skin-friendly and easy to use, give your mustache and sideburns extra definition with the click-on precision trimmer.

Digital display

The intuitive display shows relevant information, enabling you to get the best performance out of your shaver: - 3 digit (%) battery indicator -

Cleaning Indicator - Battery Low Indicator - Replacement Head Indicator - Travel Lock Indicator

60 minutes of cordless shaving

This advanced charging system gives you two convenient options: 60 minutes of running time after a full charge, or a quick charge for one shave.

Premium travel case

The S9000 Prestige Shaver comes neatly packed in a premium travel case to store all your click-on accessories. Ideal for travel or keeping it safe when it's not in use.
