Supports baby's individual drinking rhythm

A teat that works like a breast

The Natural Response Nipple releases milk only when baby actively drinks. Babies can drink at their own rhythm like on the breast, so easy to combine breast and bottle feeding. Finding the right nipple is important. See more info below.

Easy to combine breast and bottle feeding

- Natural latch on with breast-shaped teat
- Teat releases milk when baby actively drinks

Other benefits

- Choose the right teat flow for your baby
- No-drip teat design prevents spills and lost milk
- Natural Response Teats and Bottles are BPA free*
- Be patient as your baby adjusts

Vents air away from your baby's tummy

- Designed to reduce colic and discomfort

Finding the right teat is important

Highlights

Natural Response Teat

The Natural Response Teat works with your baby's natural feeding rhythm, making it easy to combine breast feeding and bottle feeding. The teat has a unique opening which only releases milk when the baby actively drinks. So when they pause to swallow and breathe, the milk pauses too.

Natural latch on

The wide, soft and flexible teat is designed to mimic the shape and feel of a breast, helping the baby to latch on and feed comfortably.

Finding the right teat is important

If your newborn baby is consistently not taking enough milk throughout the feeding sessions or has complications in getting milk, switch to a teat with a higher flow rate. If persistent feeding issues occur, consult a healthcare professional.

Anti-colic valve

Anti-colic valve is designed to keep air away from baby's tummy during feeding, to help reduce colic and discomfort.

No-drip teat

The teat opening is designed to release milk only when the baby is feeding. So you can confidently avoid milk loss whether at home or on the go.

BPA-free*

The Philips Avent Natural bottles and teats are made of BPA free* material.

Be patient as your baby adjusts

Our new Natural Response Baby Bottles are different from free-flow baby bottles. Just like breastfeeding, it could take a few tries to get it right. That's perfectly natural.

Find the right teat flow

Every baby feeds differently and develops at their own pace. We've designed a range of flow rates so you can find the perfect one for your baby and personalise your bottle. All of the Natural Response Teats are made of soft silicone.
