Highlights

NanoTech precision blades

Get an extremely close shave with the Philips S9000 Prestige electric shaver. With NanoTech precision blades and their long-lasting sharpness, your hair will be cut with the highest levels of precision for refined results.

Superb SkinComfort rings

The shaver S9000 Prestige features anti-friction SkinComfort rings, which result in superb and effortless gliding across your skin.

BeardAdapt Sensor

This electric shaver comes complete with a BeardAdapt Sensor that reads the density of your beard. It then auto-adjusts the power for the job at hand. Easy.

Excellent skin comfort system

Get a highly efficient shave, even on longer beards. This Philips shaver has wider, rounder openings that catch more hair per pass, and prevent you from having to repeatedly shave the same area.

Personal comfort settings

Choose between normal or sensitive to create a shaving experience that best suits your skin. If you're in a hurry, select the fast setting to save some time.

Multi-direction ContourDetect

Your close shaver's multi-directional heads conform to the contours of your face, catching even difficult hairs and resulting in a smoother shave.

SmartClick precision trimmer

Skin-friendly and easy to use, give your moustache and sideburns extra definition with the SmartClick precision trimmer.

Premium pouch

The S9000 Prestige Shaver comes neatly packed in a premium storage pouch, which also fits your accessories. Ideal for travel or keeping it safe when it's not in use.

Digital display

The intuitive display shows relevant information, enabling you to get the best performance out of your shaver: - 3 digit (%) battery indicator - Cleaning Indicator - Battery Low Indicator - Replacement Head Indicator - Travel Lock Indicator

Easy cleaning

Clean your shaver quickly and thoroughly. Simply pop open the shaving head and rinse it under running water.

Aquatec wet and dry

This wet and dry shaver can be used at the sink or in the shower. Go for a convenient dry shave or pair with your favourite foam or gel for a refreshing wet shave. It was designed to do both.

Li-ion battery with 1 hr charge

Use the Qi charging pad to fully charge your shaver in just one hour. This wireless shaver runs on a powerful, lithium-ion battery designed for power and longevity.
