- Edge it up
- Unique OneBlade Technology
- Innovative 360 blade
- Shave it off

#### Sharp edges

- Dual-sided blade: designed for precision and control

#### Even trim

- Get the exact length you're after
- Trim it down

# Highlights

## Unique OneBlade Technology

OneBlade has a revolutionary technology designed for facial grooming. It can shave any length of hair. Its dual protection system features a glide coating combined with rounded tips to make shaving easier and more comfortable. Its shaving technology features a fast-moving cutter (12000x per min) so it's efficient - even on longer hairs.

## Innovative 360 blade

The innovative 360 Blade can flex in all directions to adjust to the curves of your face. The design enables constant skin contact and control. Easily trim and shave hard-to-reach areas — with few strokes and great comfort.\*

## Trim it down

Trim your beard to an even length with the included adjustable precision comb. Dial up one of the 12 lock-in length settings to get everything from a 5 o'clock shadow, to a tight trim, to a longer beard style.

## Edge it up

Create precise edges with the dual-sided blade. You can shave in either direction to get great visibility and see every hair that you're cutting. Line up your style in seconds!

## Shave it off

OneBlade doesn't shave as close as a traditional blade - so your skin stays comfortable. Go against the grain and shave off any length of hair easily.

## 12-length precision comb

A wet and dry shaver that allows you to trim to your preferred hair length with 12 different settings from 0.5mm to 9mm.

## Dual-sided blade

OneBlade follows the contours of your face, allowing you to easily and comfortably shave all areas. Use the dual-sided blade to style your edges and create clean lines by moving the blade in any direction.

## Blade that doesn't fade easy

Stainless steel blade that lasts up to 4 months of use \*\* to keep that fresh feel. When the eject icon will appear on the blade, the blade performance may no longer be optimal. It is time to consider changing the blade for the best shaving experience

## Wet & dry

OneBlade is water resistant, so it is easy to clean: just rinse it under the tap. You can shave wet or dry, with or without foam - whichever you prefer.
