

PHILIPS

AVENT

Essential

Single Electric Breast
Pump

SCF323/11

Express effortlessly

The Philips Avent electric breast pump keeps milk flow at an optimum and gently adapts to your size and shape. Quick, comfortable, and convenient for each new mother.

Personalized

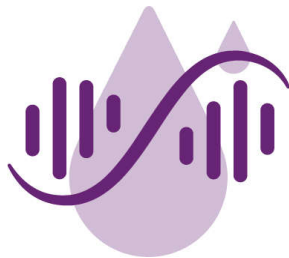

- Personalised experience, 4 + 4 setting levels
- Minimal parts and intuitive setup
- Memory function
- Small and Compact

Gentle and comfortable

- Soft and adaptive silicone cushion

Highlights

Personalised experience

Finely tune every session to your needs with a wide range of stimulation and expression settings. Our breast pump offers 4 stimulation and 4 expression levels for a personalised experience.

Soft adaptive silicone cushion

One size fits all. The silicone cushion gently flexes and adapts to fit your nipple.

Easy to clean and set up

Our closed expression system means milk stays out of the tubing so there's less to clean. Fewer parts also make it a breeze to put back together again.

Memory setting

Know what you like? The breast pump automatically remembers your last settings, so all you need to do is sit down and press start.
