

# Clean water made easy

Ultrafiltration system reduces bacteria by 99.9%

With a multi-stage ultrafiltration system, this replacement filter reduces chlorine, particles and microplastics and removes up to 99.9% of bacteria\* for healthy and tasty drinking water, while retaining beneficial minerals.

### Cleaner water

• Effectively reduces bacteria by 99.9%

### Made easy

• Simply discard the one-piece filter after use

## Highlights

### One-piece disposable filter

It is convenient and safe to discard the onepiece filter after use, avoiding secondary pollution.

### 3-stage ultrafiltration

The 3 stage ultrafiltration system consists of non-woven fabric, granular activated carbon and hollow fibre membrane, which effectively reduces chlorine, pesticides, chemicals and up to 99.9% bacteria\*. It also reduces particles down to 0.01 micron including microplastics for crisp and pure-tasting water, while retaining beneficial minerals.

### Specifications

### Filtration performance

Chlorine reduction
Microplastics reduction
Bacteria removal: Yes, up to 99.9%\*
Soluble lead reduction: N/A
Water hardness reduction: N/A

### **Filter specifications**

Main filter media: Ion-exchange resin, Hollow-fibre membrane Filtration capacity: 200 L

### Input water conditions

Input water pressure: (atmospheric) 0-1 bar Input water temperature: 5-38 °C Input water quality: Mains tap water

### **General specifications**

Compatible model: AWP2950, AWP2970

### **Country of origin**

Filter: China
