

Philips
Filter cartridge

AWP201

Clean water made easy

Microfiltration system reduces lead and chlorine

With multi-stage microfiltration system, this water filter reduces VOCs, pesticides and up to 99% chlorine and lead for healthy and tasty drinking water*. It also reduces water hardness.

Cleaner water

- Effectively reduces lead, pesticides, VOCs and chlorine

Made easy

- Simply discard the one-piece filter after use

PHILIPS

Specifications

Filtration performance

- Chlorine reduction: Yes, up to 99%*
- Soluble lead reduction: Yes, up to 99%*
- Bacteria removal: N/A
- Water hardness reduction

Filter specifications

- Filtration capacity: 200L
- Main filter media: Granular activated carbon/GAC, Ion exchange resin

Input water conditions

- Input water quality: Municipal tap water
- Input water temperature: 5-38 °C
- Input water pressure: (atmospheric) 0-1 bar

General specifications

- Compatible model: AWP2900, AWP2915, AWP2918, AWP2920, AWP2921, AWP2922

Country of origin

- Filter: China

Highlights

One-piece disposable filter

Convenient and safe to discard the one-piece filter after use, avoiding secondary pollution.

4-staged microfiltration

The 4-stage filtration system consists of non-woven fabric, granular activated carbon, resin and another layer of non-woven fabric, which effectively reduces pesticides, chemicals, microplastics, and up to 99% lead* and chlorine for crisp and pure tasting water. It also reduces water hardness.
