Clean water made easy

Microfiltration system reduces lead and chlorine

With a multi-stage microfiltration system, this water filter reduces VOCs and pesticides and removes up to 99% of chlorine and lead for healthy and tasty drinking water*. It also reduces water hardness.

Cleaner water

- Effectively reduces lead, pesticides, VOCs and chlorine

Made easy

- Simply discard the one-piece filter after use

Highlights

One-piece disposable filter

It is convenient and safe to discard the one-piece filter after use, avoiding secondary pollution.

4-stage microfiltration

The 4 stage filtration system consists of non-woven fabric, granular activated carbon, resin and another layer of non-woven fabric, which

effectively reduces pesticides, chemicals, microplastics and up to 99% lead* and chlorine for crisp and pure-tasting water. It also reduces water hardness.

Specifications

Filtration performance

Chlorine reduction: Yes, up to 99%*

Soluble lead reduction: Yes, up to 99%*

Bacteria removal: N/A

Water hardness reduction

Filter specifications

Main filter media: Granular activated carbon/GAC, Ion-exchange resin

Filtration capacity: 200 L

Input water conditions

Input water temperature: 5-38 °C

Input water quality: Mains tap water

Input water pressure: (atmospheric) 0-1 bar

General specifications

Compatible model: AWP2900, AWP2915, AWP2918, AWP2920, AWP2921, AWP2922

Country of origin

Filter: China
