# Highlights

## High quality KDF filter

The filter is made of NSF certified KDF which can remove residual chlorine and impurities such as rust and sediments, so that you can enjoy comfortable and refreshing shower with clean water.

## High water flow

Dense and smooth water flow of 8L per minute for an enjoyable shower experience.

## Anti-scald material

The housing is made of anti-scald material which fully adapts to the temperature of hot water from conventional water heaters, ensuring safe usage.

## One-piece disposable filter

Convenient and safe to discard the one-piece filter after use, avoiding secondary pollution.
