Highlights

Bottle and cup 2-in-1

There is a removable cup hidden at the bottom of the bottle, which allows you to enjoy hot drinks easier by pouring it from the bottle to the cup. It also enables you to carry different drinks at the same time by using both the bottle and the cup, or to share.

2-in-1 lid

The lid can be separated into 2 parts: a drink-thru lid for the cup, and a screw-on lid for the bottle.

One-handed carrying

By twisting the cup on the top of the bottle lid, the cup and the bottle can be connected so that you can carry both with just one hand.

Vacuum insulated

Double-walled vacuum insulated bottle keeps drinks hot for 12 hours and cold for 24 hours.

Premium 316 stainless steel

Made of premium 316 stainless steel which is more corrosion-resistant.

BPA-free

Made of BPA-free material.
