Highlights

Ultra compact size

Only 35mm wide, the metallic handle is easy to grasp. The overall size is just 14.5×7.5×3.5cm. It can be put in close fitting sport bags and occupies very little space.

Precision metallic parts

The housing is made from refined aluminium which is light weight and strong. The whole dynamic system is made from precision metal. All the parts are not just strong and durable but also perfectly detailed.

SuperDanymic system

With the powerful dynamic system, the device can provide a 10kg output power at 8mm massage depth, which is leading the industry.

Professional accessories

Massage heads are essential for massage guns. This massage gun has 6 massage heads, which can satisfy all sport recovery and daily relaxation purposes.

Strength feedback display

Real-time strength feedback shows on light ring with colors. You can monitor the pressure you are using on your body, so that you can adjust your massage plan according to advice of your physio.
