- Working voltage: 7.4V
- Massage frequency: 1600Hz-2800Hz
- Working power: 15W
- Maximum thrust: 5kg

- Battery: 1300mAh
- Charging current: 1.5A
- Charging port: Type-C
- Charging voltage: 5V

Country of origin

- Made in: China

Service

- Warranty period: 2 years

PPM7302PK/79

Highlights

Gentle mode

Innovative AI chip algorithm, customised frequency curve and automatic frequency switching make it suitable for massage on sensitive parts and effectively remove fatigue as well as avoid damage.

Thermostatically hot compress

Hot compress can promote blood vessel dilation, strengthen partial blood circulation of the human body, effectively relieve muscle tension and reduce partial pain. It makes you relaxed, and relieves the fatigue of the day. Supports simultaneous massage and hot compress, which helps to strengthen the therapeutic effect of massage and avoid muscle damage.

Special gentle accessories

Special gentle massage head set, carefully designed the structure and materials. The gentle massage head plays a buffering role to avoid direct force acting on the body so that can cause damage. It is suitable to massage the body. Skin-friendly material, soft and non-allergenic. It is easy to load and unload, and clean.

Lightweight and easy to carry

37mm diameter grip, ergonomic design, compact and exquisite. The weight of the whole device is only 290g. You can easily grasp it with one hand, click and use. It is easy to store and carry, which is suitable for multiple uses.

Skin-friendly touch

The rubber paint spraying process is used, which makes the grip more comfortable and delicate, and provides an excellent touch.
