- Massage modes: 4
- Battery: 1100mAh
- Charging port: USB Type-C
- Battery life: 90minutes (5-6 operating cycles)
- Music system: Built-in music/ Wireless music

Country of origin

- Country of origin: China

Service

- Warranty period: 2 years

Highlights

Wireless music connection

Supported wireless connection to mobile phone audio, you can freely play your favorite stories and music. It gives you a private space to get rid of fatigue and enjoy your own massage moments.

AirEase Massage System

The newly upgraded AirEase massage system, massaging the skin around the eyes and the temples, can bring a relaxing massage experience to 7 massage areas. It can fully relax the eye nerves and also relieve eye fatigue, soreness and other discomfort symptoms. A brand new eye massage experience for all users.

Nano organic silicone leather

Equipped with nano silicone leather lining, its high elasticity makes it extremely soft and smooth to the touch, without any stickiness. It is durable as it won't be aging even under a wide range of temperature, humidity, direct sunlight, chemical corrosion (such as sweat) and other bad environments. Besides, it is waterproof and anti-fouling. After long-term use, it will not smell bad. Convenient to clean and use, so that it can be kept away from leaving sweat stains.

Pressure-free design for eyes

Pay attention to every detail and give full consideration to the user's massage experience. The position of eyeball has adopted a 3D pressureless design, which preserves the space for eyes and does not cause any direct pressure on the eyeballs, making it more comfortable and safer to use.

A large area of hot compress

Compared with traditional eye mask massager, the hot compress area of the new type has increased by more than 30%. Keeping at a constant temperature of 40°C, it is comfortable to use and will not scald the skin. It helps to promote blood circulation around the eyes, which can deeply relax the eye muscles and eliminate eye fatigue and soreness.

4 modes

Short press the power key to cycle through the following massage modes: Eye beauty mode, Eye care mode, Sleep mode and Warm eye mode. Meet the different usage needs of multiple scenarios.

Foldable design

The foldable design does not take up any space and is easy to store and carry, so that you can enjoy it wherever you go.

Non-slipping design

Wide bandage design, comfortable to wear. Triangular nose pads, non-slipping design to fit the face.
