Specifications

Filter specifications

- Replacement filter cartridge: ADD502
- Filter precision: 1 micro
- Main filter media: Carbon block
- Filtration capacity: 4000L

General specifications

- Voltage and frequency: 220V~ / 50Hz

- Cold water temperature: 10 °C
- Hot water temperature: 90 °C

Power

- Cooling: 85W
- Heating: 170W/350W

Country of origin

- Water dispenser: China

Highlights

Child lock for hot water

Child lock for hot water keeps children safe from accidental hot water burns.

Compressor cooling

Compressor cooling produces cool water more efficiently and faster, compared to conventional thermoelectric cooling.

Dual heating powers

Dual powers for your selection - 350W high power for fast boil, and 170W low power to save energy.

QuickTwist filter change

QuickTwist filter change for easy filter replacement; no professional service needed.

ClearSmart filter indicator

ClearSmart indicator reminds you of on-time filter replacement to ensure the water quality. When the filter is approaching the end of life, the indicator starts to flash, and turns red when the filter lifetime ends.

Long-life filtration

The MicroClean filter has a filtration capacity of 4000L, which lasts for about 1 year***.

Micro P-Clean filtration

Cleaner water assured with effective microplastics removed*, thanks to the Micro P-Clean filtration system which comes with a fine filtration precision of 1 micro.

Wide water dispensing area

Wide dispensing area easily fits various sizes of cup, glass, bowl and even pot.

Z-shape water pipe

The 304 stainless steel water pipe is anti-rust, and the Z-shape helps to reach the bottom of the bottle so that there's no remaining water.
