360 D Flexing heads

S8697/35

Excellent closeness, smooth skin feel with SkinIQ Technology

The Philips Series 8000 delivers a smooth skin feel, while cutting each hair close - even on 5-day beards. Equipped with advanced SkinIQ technology, the shaver senses, adapts and guides on the correct motion, for better skin protection.

A close shave

- Flexible heads follow your facial contours
- Engineered for precision and cutting efficiency
- Advanced precision for a closer shave*

SkinIQ technology

- Smooth gliding for better skin protection
- Guides you to an improved technique with fewer passes
- Adjusts to your beard for effortless shaving
- Enhanced shaving experience with app

For a convenient shave

- Up to 50 minutes of cordless shaving when fully charged
- 1 hour charging time and 5 min quick charge
- One-touch open for easy cleaning
- Shave wet, dry and even under the shower

Sustainability

Highlights

Protective SkinGlide coating

A protective coating lies between the shaver heads and your skin. Made of up to 2000 micro-spheres that coat every square millimetre. Minimise irritation by reducing 25% of friction on skin***.

Dual SteelPrecision blades

With up to 150.000 cutting actions per minute, the Dual SteelPrecision blades shave close. The 72 high-performance blades are self-sharpening and made in Europe.

Motion Control sensor

Motion-sensing technology tracks how you shave and guides you to a more efficient technique. After just three shaves, the majority of men achieved a better shaving technique for fewer passes***.

Personalisation via app

Perfect your shave by pairing your shaver with the Philips GroomTribe app. Shave by shave, track the progress of your skin, personalise your shave and master your technique for a shave that's as close as it is kind to skin.

Power Adapt sensor

The intelligent facial-hair sensor reads hair density 250 times per second. The technology dynamically auto-adapts the cutting power for an effortless and gentle shave.

360 D Flexing heads

Fully flexible heads turn 360° to follow your facial contours. Experience optimal skin contact for a thorough and comfortable shave.

Hair-Guide Precision heads

The new shape of the shaving heads is engineered for precision. The surface is enhanced with hair guiding channels, designed to move hair into an effective cutting position.

One-touch open

Clean the shaver with ease. At the touch of a button, flip open the shaver head and rinse with water.

Wet & Dry

Adapt your shaving routine to your needs. With Wet and Dry, you can go for a comfortable dry shave or a refreshing wet shave. You can shave with gel or foam, even under the shower.

Pop-up trimmer

Complete your look using the shaver's pop-up precision trimmer. Integrated into the shaver's body, it's the perfect way to maintain a moustache and trim sideburns.

USB-A charging

At Philips, we drive sustainability in all aspects of product creation. Our ambition is to reduce waste and minimise the number of USB adapters we put in the market. Should you need an adapter, a suitable supply unit is available via: www.philips.com/support

1 hour charging time

Charge your shaver fully in just 1 hour with the powerful and energy efficient lithium-ion battery. In a hurry? Plug in your shaver for 5 minutes and get enough power for 1 full shave.

Sustainable shaving innovation

Our production facility for blades uses 100% renewable electricity, and our packaging is made with recyclable materials. All shavers come with an Eco passport.

50 minutes of cordless shaving

Shave cordlessly for up to 50 minutes after one full battery charge.
