- Project HD videos and images up to 120" (305cm) in size

Wireless connection

- Connect wirelessly with other devices within a network
- Set up an own network to connect other devices

Ultra portable

- Internal battery for playtime up to 2 hours
- Play videos directly from your SD card or USB stick

Go online

- Share web content like YouTube videos

Highlights

120" (305cm) image size

Enjoy the biggest mobile screen you ever had and share your HD media content wherever you want. With your PicoPix you are carrying a personal cinema in your pocket.

Personal Wi-Fi Hotspot

Whenever there is no Wi-Fi network available, the PicoPix will become a Personal Hotspot and set up its own network for all DLNA compatible devices, enabling you to share content on a large screen

Integrated Media player

The integrated MP4 player supports all common video and audio formats. This makes the PicoPix pocket projector a standalone device, retrieving its content from the internal 2 GB memory, USB stick or one of various different types of memory cards.

Internal battery

The PicoPix comes with a compact built-in rechargeable battery for long-lasting power. Up to 2 hours of continuous movie, photo and music playback enjoyment can be achieved on a single charge. This makes the PicoPix your perfect pocket companion.

LED-Technology

Your pictures and videos deserve the best quality when it comes to sharing them with those around you. This is why the PicoPix pocket projector uses high quality LED technology to project your pictures and videos in brilliant colours and breathtaking contrast.

Wi-Fi function

With Wi-Fi you can connect your PicoPix 3610 to DLNA compatible devices on your home network, and project your content from these devices.
