Highlights

4K laser Projector

Watch movies and more in True 4K UHD sharpness, full of the fine detail that can be lost at lower resolutions. The picture remains lifelike and text is crystal-clear when displayed at up to 120" or more. Texas Instrument DLP cinema technology delivers dramatic home cinema viewing with vivid pictures, deep contrast and a bright image in any conditions. The 2,200 ANSI Lumens Laser light source displays rich, and vivid colors for more up to 25,000hours: you won't need for blackout curtains!

Android TV Experience

Your Philips Android TV Projector gives you the content you want when you want it. You can customise the home screen to display your favourite apps, making it effortless to start streaming the movies and shows you love or pick up where you left off. Our OSD has a new intuitive UI design, which makes it a breeze to navigate and find your way around. Powered by the fastest AMLOGIC CPU, it provides a smooth, best in class Android TV experience.

ChromeCast Built-in

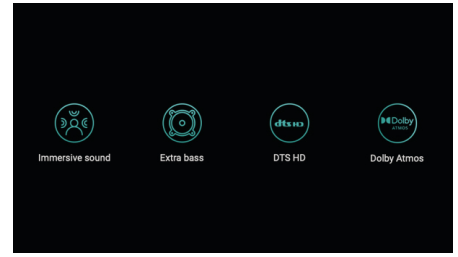

Chromecast built-in is a technology that allows you to stream your favorite entertainment and apps from your phone, tablet, or laptop right to your TV or speakers. Your phone acts as a simple, powerful remote. Just open the mobile apps you already know and love to quickly access your TV shows and playlists. No new log-ins or downloads required. You can use your phone to search, browse, queue and control the projector from anywhere in the home, and keep using it without disrupting what's playing or draining your battery.

Cutting Edge Image Quality

With precise color accuracy and incredible contrast on a max 150-inch screen space, the Screeneo U5 is the world's first projector able to product images compatible with REC709, Dolby Vision, HDR10 and HLG ensuring incredible color reproduction performances up to 12-bit. Eye sensors protection for automatic light dimming.

Dolby Atmos and DTS HD

The Screeneo U5 brings you state-of-the art sound to complete the True 4K Experience with Dolby Atmos and DTS HD.

Enriched Connectivity

Connect all your favorite devices via HDMI (like smartphone, tablet, laptop, gaming console), and play all your videos, pictures, and audio files from a USB thanks to the built-in multimedia player. There is also a 2x HDMI, 2x USB, SPDIF and Jack 3.5 to connect external speakers. The RS-232 port enables home cinema and home automation system.

Flow Motion 4

Our new Flowmotion 4 adds artificial frames between existing picture frames to enables videos to appear at a higher frame rate. Our technology automatically recognizes dynamic pictures and inserts frames to ensure the motions you see are fluid and smooth especially for fast moving images like sport or action movies.
